Concept of the Project

Our concept is a delivery website for a restaurant. This website primarily includes pages Home, Menu, Cart, and Account. Information such as customer's address, name, email, and phone number is needed to complete the process of ordering. For the payment method, we have decided to make all transactions cash or Gcash upon arrival of the food delivery. We have decided to make the UI/UX of our website simple. It contains colors that are linked to the logo of the restaurant; green and yellow. Overall, the website contains 14 pages and 2 external links for the Facebook and Instagram pages.
